

President Message

Well, I guess that's all she wrote! She being Mother Nature, of course. Summer has unofficially come to an end, and has brought with it the cool evenings of the coming fall. This past summer was different and new for me. I was able to take advantage of a few opportunities and met new people and did some new things. Overall, it was busy but enjoyable. I look forward to hearing all your stories this fall.

Western PEI Tour (J. Quigley)

Cousins. Yup. If you have lots of cousins, you have a great trip.

Our visit to the Tignish area of PEI was facilitated by Francis, Greg and a plethora of various siblings and related individuals.

The beach walks and the local tours provided tons of history and trivia about the area, as well as tips for future visits. The Stompin’ Tom Dinner Theatre was both a rare glimpse into the life of a remarkable Canadian and an entertaining and tasty evening. The

lecture and tour of the wind turbine farm tickled the fancy of our engineering and science buffs, while explaining the mechanics of electric generation. A tour of the lobster processing facility dressed us in strange garb but showed the reality of a modern food delivery operation, owned by PEI fishers. Some of the lobster found its way to supper at the Heritage Inn where we feasted on the crustaceans and coconut cream pie created by Francis’ sister-in-law. AND THEN we had live music by a superb PEI duet and one extraordinary retired dentist.

All in all, a superb event; well organized, executed and enjoyed!

Message from the Club Manager

Here we are, another summer almost over! Where has the time gone? I sure hope you had lots of time to enjoy every little bit of it.

A few weeks ago, 10 club members joined Greg and I on PEI for the first of, I hope, many tours of “My Island”.
